## PROFILE

**Highly motivated junior frontend developer looking for a job/internship where I can apply my skills on a larger development team. Eager to tackle more complex problems expand my JavaScript & React(currently at beginner level) knowledge into perfecting accessibility on responsive design and continue to find ways to maximize user efficiency. My 2022 goal is to find an internship/junior position and work really hard so I can accumulate knowledge and experience.**

## WORK EXPERIENCE

*My career started at 18 in a warehouse in Italy, then I found a customer service job in London while visiting some friends. My next jobs were construction related, I was well paid and respected. The pandemic motivated me to come back home and start my own business, a coffee shop(didn't work out but it was a great lesson). In 2020 I started as an Insurance Broker through my company with Transilvania Broker franchise.*
